

NXGEN

Canada

Preferential Rates on Visa, MasterCard and Interac

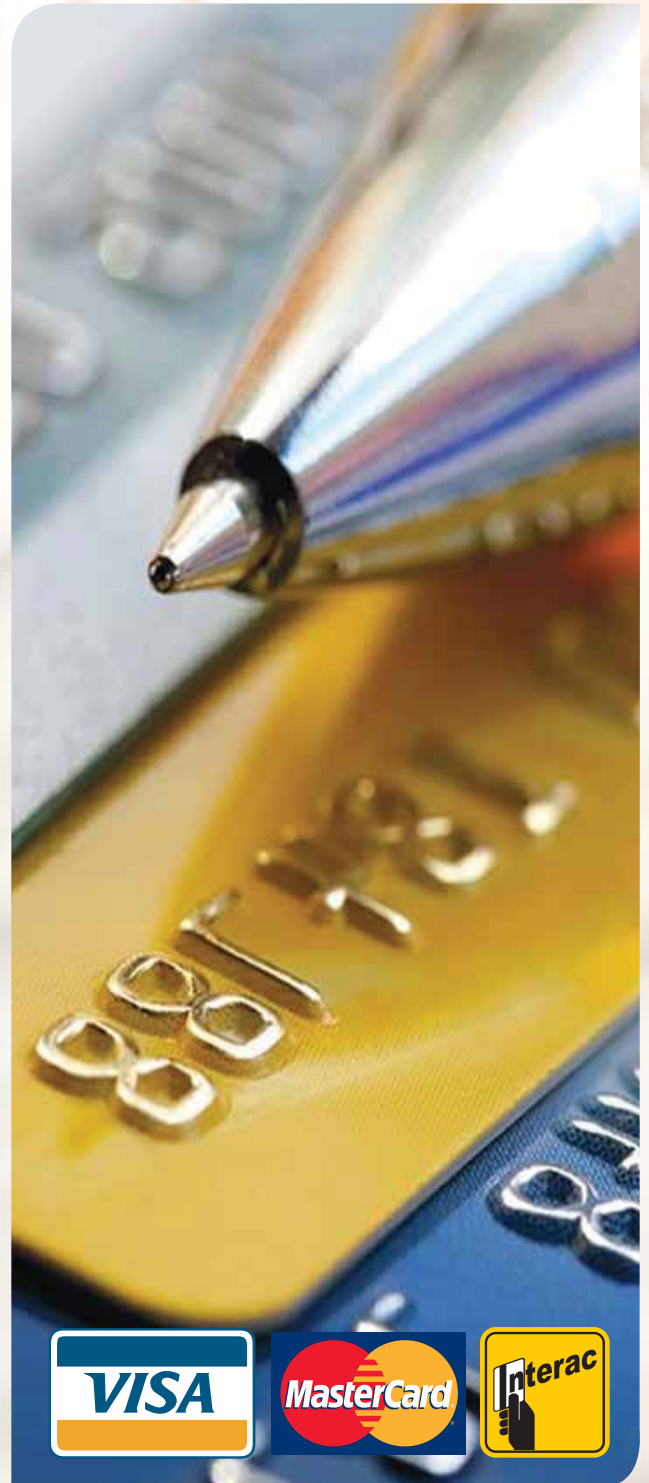

If you haven't yet taken advantage of the Co-Auto / NXGEN Payment Processing Program we suggest you allow a NXGEN Canada representative to complete a detailed cost analysis of your payment processing costs to compare the preferred rates Co-Auto has negotiated for all Co-Auto Members. NXGEN Canada has saved tens of thousands of dollars for members on their monthly transaction costs.

As the preferred provider of Merchant Services to Co-Auto Co-operative, NXGEN Canada, an Elavon Payments Partner, is pleased to offer you a complete transaction processing solution with preferential rates on VISA, MasterCard, Interact and other point-of-sale services.

NXGEN's extremely competitive program will not only allow many dealers to save on their merchant processing fees but members will also receive exceptional customer service.

The Merchant Payment Processing Program is one of many member services that Co-Auto provides to help you be more successful. We are committed to your future growth.

A NXGEN Professional will be contacting all dealerships to arrange for a no obligation analysis/ quote. If you have any questions prior to being contacted please call, Michael Turow at 905-317-2201
